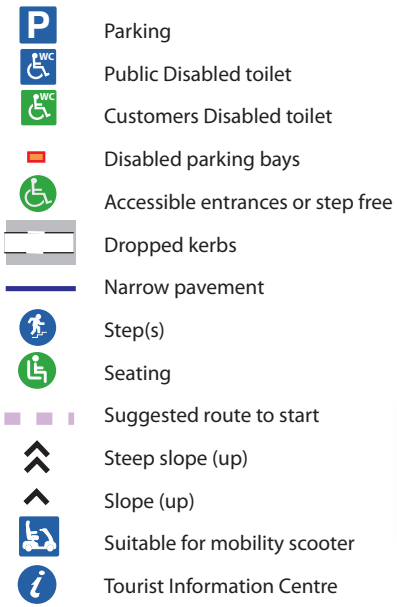
Riverside Path
Accessibility Map



Distance: 0.9miles or 1.5km with an up/down of 12 metres.

We suggest you start at point **A** to avoid the steep descent of Castle Street.

From point **A** turn down Silk Mill Lane and follow the road round to the right and along to the junction with Castle Street. Turn left, along the narrow pavement, over the river to the alleyway between houses signposted 'Gloucestershire Way'. Turn left up the path and go through the Radar gate and follow the stone path through the ridge and furrow field to a footbridge with a gate. Here you have views to the wooded hills and often sheep grazing. Continue alongside the River Isbourne to another footbridge with a nice view of the river bubbling past, to reach the Radar gate at Broadway Road. Turn left and follow the pavement to Silk Mill Lane.
Radar keys are available from the Tourist Information Centre if needed.
